

# Home Delivery Instructions For Dr. Bressman's Patients

[www.emersonecologics.com](http://www.emersonecologics.com)

Emerson Ecologics is the largest internet distributor of quality nutraceuticals in the United States. As many of you know there are several reports of private label and store brand products that have been found to contain little or no active ingredients or in worst cases are adulterated with other drugs or impurities. This practice is rampant and has been addressed by the nutraceuticals industry which has developed the GMP (good manufacturing process) and NSF certification for companies that submit every raw ingredient used in the manufacturing process to independent 3<sup>rd</sup> part verification before compounding their products and post manufacturing assay to assure the quantity and strength of the product. Emerson Ecologics has recognized these standards and only distributes nutraceuticals of this caliber and then has posed their own additional standard, "EQP" (Emerson Quality Product, Gold/Silver Medallions), which is awarded to companies that submit to onsite inspection by the Emerson Ecologic team. As a medical practice we cannot urge you strongly enough to take this into account when you order what you need based on the laboratory testing we have done to evaluate and follow your condition.

In order to avoid the inconvenience of having to come into our office to obtain your supplements we have arranged with Emerson Ecologics to give you full access to their entire catalog with direct home delivery. When you create an account with Emerson Ecologics and register as a member of my practice you will receive 10% discount below their internet price when you have checkout. In step 2 of their registration form, you will be asked to specify your Practitioner's Zip Code (**91730**) and Access Code (**drb789**).

It is my hope that that this service will save you time and money and most importantly allow you to avoid running out or lapsing coverage of the specific nutraceuticals that are needed restore you to better health. Additionally, you will have unrestricted access to a huge array of products which you will receive with 2 day delivery and you will not have to pay separate postage for multiple sources.

If you are not able to find a special nutraceutical through the Emerson Ecologics website, we will gladly obtain this for you. We will continue to stock a starter supply of nutraceuticals in our office for your convenience and we will absorb the shipping costs and offer you the same in office 20% discount.
